The villa

This newly built villa in Ibiza is the epitome of modern architecture and eco-friendly design. The first floor welcomes you with a spacious hall of approximately 26 m², which leads to three beautifully designed bedrooms, each with its own unique character. The first bedroom, of 20 m², and the second, of 22 m², both have private bathrooms with shower, sink and toilet. The master bedroom, a generous space of about 30 m², offers a luxurious bathroom with double sinks, a stylish shower, toilet and a freestanding bathtub. This makes it the ultimate oasis of peace and privacy. The first floor also houses a spacious living room of about 50 m², which flows seamlessly into a generous kitchen of about 40 m². The living room, embellished with a large 5 m² loft and an elegant see-through fireplace connecting the space to the kitchen, is directly adjacent to a veranda with an enchanting view of the pool. This open and flowing design combines the perfect balance between inside and outside, allowing the natural beauty of Ibiza to flow into your everyday life. A spacious open staircase leads to the basement, an addition that is both functional and aesthetically pleasing. The basement, with an additional living area totaling 165 m², offers a wealth of possibilities. It includes two technical rooms, the larger of which can be accessed from the outside - ideal for maintenance work - and another space of 83 m² that can be furnished to your own taste with facilities such as a sauna, cinema or gym. Also located here is a separate, spacious bedroom of 25 m² with a private bathroom of 5 m², and is equipped with natural light. Also, the basement offers the possibility for a guest house or nanny room of approximately 27 m² with a separate access from the outside, offering additional flexibility and privacy. This villa combines state-of-the-art design elements with an eco-friendly approach, making it an ideal choice for those who appreciate both luxury and sustainability.

The outdoor spaces

The beautifully landscaped gardens are elegantly lit and designed with minimal maintenance in mind. An additional guest house of 30m² can be constructed on the plot in the future. Two charming original Ibicenco structures are to be found in the inner courtyard as well as a private well. This all adds up to a very exceptional property, which is realized to the highest quality standards and is located in a truly exceptional location.
